Your ultimate source for dust bags, screens and rubber products!

Downdraft Table Filters

Fabric Filters More Efficient on Downdraft Tables

American Fabric Filter Co., Wesley Chapel, FL, manufactures replacement fabric filters for use in downdraft tables. The singed surface 16 oz. scrim-supported felt used in the production of these filters captures even the finest dust, down to 1 micron, and prevents blinding and promotes self-cleaning. No shaker or paddle is necessary to clean the filter and keep it performing at peak level. Standard and custom-sized filters are available for OEM downdraft tables and systems converted from cartridges. Popular OEM sizes in stock and available for same day shipment.

Call, fax or e-mail us for a no-obligation evaluation of your equipment's performance and a free quote.
