

# American Fabric Filter Co.

Your ultimate source for dust bags, screens and rubber products!

## Rubber Fabrics, Tubing & "Boots"

### Flexible, Durable & Air-Tight

American Fabric Filter Co. offers a wide range of rubber and vinyl products (most are food grade) to satisfy the requirements of our customers. Our line includes fabricated sheet rubber and vinyl products, plus many forms of stock and special order flexible tubing and connectors.

Rubber Coated Nylon (RCN) and Vinyl Coated Nylon (VCN) can be cut and sewn into almost any size or shape. Grommets, loops, zippers, ground wires, etc. can easily be incorporated as needed. RCN and VCN work well for flanged connectors, equipment covers, load-out sleeves and catch cloths. We provide molded 10 3/4" and 12" long Corrugated Rubber "boots" in various diameters and compounds.

Gum Rubber Tubing is stocked in 2" to 16" diameters and 1/8" to 1/4" wall thicknesses for use with or without a pressure-containing canvas jacket. Higher temperature compounds like Silicone and EPDM are also available in stock and custom spliced sizes. Tough, clear Polyurethane Tubing is especially suitable for handling abrasive materials like rice and granular foods.

Call, fax or e-mail us for a no-obligation evaluation of your equipment's performance and a free quote.
